INDEX

JANUARY TO DECEMBER 1967

Page

A

Aerials, the design and adjustment of m.f. broadcasting, by P. Knight .. 6
Amplifier, A 50 to 500MHz broadband transistor, by A. E. Hilling .. 352
Amplifiers, analysis of feedback, by G. J. Pridham .. 436
Amplifiers combining bipolar and field-effect transistors, by W. Gosling .. 478
Amplifiers, design of low level d.c. chopper, by S. K. Bhola and R. H. Murphy .. 318
Amplifier design, v.h.f. solid-state power, by T. Spencer 72
Amplifier (s.d.a.) for nuclear reactors, new shutdown, by I. G. Morris (Part 1) .. 485
(Part 2) .. 553
Analogue multiplier, a simple high speed, by J. P. Wilson 11
Analyser for use in human electromyography, an, by P. Fitch .. 240
Antenna, backfire meander-line, by S. C. Loh and J. Jacobsen .. 575
Antenna, X-band omnidirectional double-slot-array, by T. Takeshima .. 617
Array of slots on the surface of a cylinder, directivity of, by J. Ricardi .. 578
Automation for the Tyne tunnel .. 309
Averager, electromechanical running, by K. C. Ng and K. K. Murthy .. 169
Averaging of heart-rate responses in rats following electrical brain stimulation, by W. J. Mundle .. 686
Aviation, electronics in .. 322

B

Binary-coded-decimal circuit with gated feedback, an asynchronous, by S. L. Hurst .. 25
Bus services with computer checking of time-tables, planning a v.h.f., f.m. radio system for, by T. K. Tawfiq .. 224

BOOK REVIEWS .. 48, 118, 188, 264, 330, 394, 460, 518, 650, 717, 784

Advanced electronic techniques: proceedings of the second Oxford electronics lecture course .. 520
Advances in microwaves, volume 1 .. 519
Volume 2 .. 717
American microelectronics data .. 119
Analysis and synthesis of tunnel diode circuits .. 330
Analysis of discrete physical systems .. 394
Antenna theory and design, volume II, second edition .. 460
Anthology of Philips research 1891-1966 .. 265
Automatic control systems explained .. 189
Automation and instrumentation .. 395
Basic automatic control theory .. 264
Basic electrical engineering: circuits, electronics, machines, control 719
Basic electricity for electronic engineers .. 395
Basic mathematics for electronics .. 395
Basic television: part 1 .. 719
Basic theory of waveguide junctions and introductory microwave network analysis .. 784
BBC handbook, 1967 .. 265
Beitrage zur Analyse des dynamischen Verhaltens von Regelkreisen (papers relating to the analysis of the dynamic behaviour of control circuits) .. 331
Challenge of the computer utility .. 189
Circuit design for audio .. 719
Communication system engineering handbook .. 717
Comparative study of programming languages .. 719
Computer programming for science and engineering .. 49
Design and construction of electronic equipment .. 49
Dictionary of electronics .. 265
Dictionary of electro-technology, German-English .. 330
Differential and difference equations .. 394

Page

Digest of literature on dielectrics, Vol. 29 .. 331
Directory of electronic circuits .. 119
Economic computation and economic cybernetics studies and research .. 265
Eddy currents .. 331
Einführung in die Anwendung kontaktloser Schaltelemente (introduction to the applications of contactless switching elements) 520
Einführung in die Schaltalgebra (introduction to switching algebra) 785
Einfluss von Hochfrequenzüberlagerungen bei Stosspannungen auf das Durchschlagverhalter von Luft unter Atmosphärendruck bei verschiedenen Elektrodenanordnungen .. 718
Electric power systems .. 787
Electrical and electronic trader's year book 1967 .. 331
Electrical conduction mechanisms in thin insulating films .. 189
Electrical noise .. 786
Electrical properties and applications of thin films .. 717
Electromagnetic shock waves .. 188
Electron dynamics of diode regions .. 784
Electronic automatic control devices .. 329
Electronic circuit analysis: volume 2—active networks .. 461
Electronic communications .. 395
Electronic computers made simple .. 395
Electronic counting: circuits, techniques devices .. 787
Electronic digital systems .. 48
Electronic engineering .. 118
Electronic inverters .. 718
Electronic laboratory instrument practice .. 395
Electronics and nucleonics dictionary .. 331
Electronic sensing devices .. 119
Electronics from theory into practice .. 265
Electronic testing .. 331
Electronic weighing and process control .. 520
Elementary electronics .. 518
Elements of energy conversion .. 651
Engineering electronics .. 652
Engineering science at the university .. 520
Fluctuations of stationary and non-stationary electron currents .. 189
Focusing of charged particles, Vol. 1 .. 785
Fourth state of matter .. 119
Fundamental electronics .. 518
Fundamentals of digital machine computing .. 331
Fundamentals of electronics .. 651
Fundamentals of silicon-integrated-device technology, Vol. 1 .. 786
Gas-lasers .. 718
Generalized electric machines .. 719
Handbook of basic transistor circuits and measurements .. 395
Handbook of electronic instruments and measurement techniques 719
High-frequency communication .. 719
History of the house of Siemens, Vol. I and II, 1914-45 .. 331
Impedanzuntersuchungen an dielektrischen Flachantennen (study of the impedance of dielectric plane aerials) .. 265
Instruments, electronics, automation year book and buyers' guide 520
Integrated circuits .. 395
Introducere In Cibernetica Sistemelor Discrete (introduction to discrete systems cybernetics) .. 265
Introduction to computational linguistics .. 787
Introduction to cybernetics .. 519
Introduction to dynamic programming .. 265
Introduction to network analysis .. 785
Introduction to vector analysis for radio and electronic engineers 119
Ionization avalanches and breakdown .. 189
Laplace transforms for electronic engineers .. 119
Laplace transform theory and electrical transients .. 650
Laser light .. 650
Laser receivers .. 264
Lasers .. 650
Les machines electriques en automatique appliquée .. 461
Linear sequential circuits: analysis, synthesis and applications .. 652
List processing .. 787
Lithium-drifted germanium detectors—proceedings of panel, Vienna, 6-10 June 1966 .. 331
Longitudinal space-charge waves .. 49
Low-noise electronics .. 718
Machine translation .. 520
Magnetism and magnetic materials 1966 digest .. 395
Magnetism in solids .. 518
Mathematical techniques in electronics and engineering analysis .. 787
Mathematics for radio and electronics technicians .. 331
Measuring methods and devices in electronics .. 49
Membranes—technology and economics .. 331
Microelectronics .. 520
Microwave breakdown in gases .. 650
Microwave valves .. 330
Modelle und Ersatzschaltungen von Halbleiterdioden (models and equivalent circuits of semiconductor diodes) .. 520

Physical principles of magnetism 49
Physics of modern electronics 784
Plastic insulating materials 119
Principles of linear circuits 118
Proceedings of IFIP congress, 1965, New York City, May 24-29, Vol. 2 331
Programmierung von Datenverarbeitungsanlagen (programming of data information) 395
Progress in nuclear energy series: IX—analytical chemistry, volume 7 49
Publications of the National Bureau of Standards 719
Radio amatur's handbook 520
Radio and electronics components: vol. 1—fixed resistors .. 520
Radio relay systems 119
RCA receiving tube manual 331
Regulations for the electrical equipment of buildings 49
Reports on progress in physics, parts I and II 331
Safety for industry 787
Safety with cryogenic fluids 787
Semiconductor circuits: worked examples 265
Semiconductor devices 189
Semiconductor junction devices 785
Sequential-circuit synthesis: state assignment aspects 118
Short wave listening 49
Signale und Systeme (signals and systems) 394
Silicon and germanium power rectifier technology 49
Simple approach to electronic computers 331
Solutions d'exercices du cours élémentaire de mathématiques supérieures, tomes I à III de J. Quinet 787
Statistical communication and detection 786
Strahlungsköpplung von Wendelantennen (radiation coupling of helical aerials) 265
System analysis by digital computer 188
Technical drawing 520
Techniques of pulse-code modulation in communication networks 652
Tehnica Frecventelor Foarte Inalte (v.h.f. techniques) 265
Telefonie La Mare Distanta (Long Distance Telephony 265
Teleurope 119
Théorie et pratique des circuits à transistors 48
Theory and application of active devices 329
Theory of waveguides and cavities 784
Transduktorschaltungen (transductor circuits) 189
Transformers for electronic circuits 460
Transistor circuit, design and analysis 118
Transistor physics 264
Transistors for audiofrequency 520
Transistor specification and substitution handbook 265
Ultrasonic machining of intractable materials 265
Untersuchungen an dielektrischen Stielstrahlern über den Einfluss der Strahlungsköpplung auf deren Fusspunktsimpedanz (the influence of the radiation coupling on the base impedance of dielectric rod radiators) 329
Untersuchungen über ebene Beugungsprobleme elektromagnetischer Wellen für rechtwinkligkeilformige Gebiete (plane diffraction problems of electromagnetic waves in right-angled, wedge-shaped areas) 329
Wireless World diary 1968 787
Worked examples in modern physics, vol. I and II 520
Zur Frage der Verhutbarkeit von Kollisionen in der Binnenschiffahrt (aspects of collision prevention on inland waterways) .. 265

C

Cable for Cape Town-Lisbon submarine link, first .. 783
Calculus, open-limit, by C. G. Mayo and J. W. Head 696
Checking equipment for aircraft, automatic 243
Circuit synthesis, approach to applied, by R. H. Dadd 668
Circuits incorporating new coupling-loop configurations, all magnetic, by D. J. Morris 412
COMMENTARIES .. 1, 71, 141, 211, 279, 345, 411, 477, 535, 599, 667, 733
Compensating networks, a note on a.c., by D. R. Wilson 316
Cone of confusion, simulation of, by S. Dalal 78
Control for overhead travelling crane, radio 418
Conversion, example of digital-to-analogue, by W. Olthoff 763
Conversion, voltage-to-frequency, by B. D. Rakovich and S. Tesic 766
Convertor, accurate current-to-frequency, by J. Korytkowski 568
Convertor, accurate triangle-sine, by G. Klein and H. Hagenbeuk 700
Convertor for low frequencies, accurate a.c.-d.c., by R. W. Gellie and A. G. Klein 484
Convertors using linear ramps, time-amplitude and amplitude-time, by C. Riddle—Part 1 600
Part 2 711
Counter, a rapidly reversible 700kHz digital decade, by J. F. Brandwijk and P. H. Sydenham 298
Counter, train decade, by R. P. Ingram 759
Counter, transistorized 100MHz binary, by R. J. Hood 642
Current-driven source-follower, the parameters of the, by P. F. Ridler 290
Current-measuring transistor circuits, logarithmic, by K. Søe Højberg 20

D

Data logger scaler and alarm limit comparator, a, by R. J. S. Ruckman 177
Data service, an automation instrument 249
DATA SHEETS AND CATALOGUES .. 532, 662, 729
Decade boxes with binary output, by D. P. Franklin .. 152
Dekatron selectors with low-cost transistors, coupling, by J. F. Young 323
Delay lines, precision temperature-controlled environments for ultrasonic fused-quartz, by D. Howorth, C. R. Caine and L. T. E. Ward 706
Delay unit suitable for television-field delay, by D. Howorth and J. G. Ingleton 734
Detector for power measurements, a square-law, by J. F. Golding 82
Digital-analogue convertor with reciprocal read-out, a simple, by L. Davison and R. Wilson 381
Digital coding equipment for recording field strength measurements, by D. G. Beadle and D. E. Susans 233
Domain originated functional integrated circuits .. 183
Drive circuits for a piezo-electrically driven mechanical vibrator, two terminal, by T. J. Stevenson 222

E

Electroluminescent panels for display of complex systems 435
Electrometer circuit, a junction transistor, by T. K. Cowell 362
Electronic sketch-pad 545
Esaki diode pair, comparator-hold circuit using the facing-coupled, by Y. Murata 356
Eurocontrol experimental centre, the 166
Extraction of signals from noise using digital techniques, by A. B. E. Ellis 546
ELECTRONIC EQUIPMENT .. 50, 120, 190, 266, 332, 396, 465, 524, 589, 656, 723, 790
Accelerometer 592, 659
Adders, integrated circuit 399
Amplifier, buffer 190
Amplifier, carrier frequency 338
Amplifier, chopper 792
Amplifier, chopper-stabilized operational 795
Amplifier, d.c.-coupled wideband power 658
Amplifier, differential operational 474
Amplifier, f.e.t.-input operational 727
Amplifier, integrated medium-power 659
Amplifier, integrated-circuit operational 794
Amplifier, low-drift high-speed operational 660
Amplifier, low-noise 793
Amplifier, operational 468
Amplifier, oscilloscope differential 194
Amplifier, plug-in differential 531
Amplifier, servo 270
Amplifiers, solid-state charge 726
Amplifier, transistorized charge 473
Amplifier, unity-gain 529
Analyser, high-frequency wave 465
Analyser, inductor 400
Analyser, servo 269
Attenuator, u.h.f. switched 333
Automatic gauging equipment 335
Balun transformer 794
Boards, circuit-development 656
Bridge and amplifier, d.c. 123
Bridge, automatic 473
Bridge, radio-frequency 659
Bridge supply and indicator, d.c. 402
Bridge units, single-phase full-wave 797
Cables, television-relay 528
Calibrator, portable v.h.f./u.h.f. 790
Camera, closed circuit television 470
Camera, new 524
Camera-viewfinder tube 655
Capacitance box 333
Capacitance boxes, decade 397
Capacitor box, binary 659
Capacitors, etched tantalum foil 268
Capacitors for printed-circuit boards 729
Capacitors, glass-dielectric trimmer 658
Capacitors, lead-through 792
Capacitors, miniature monolithic ceramic 724
Capacitor, miniature p.t.f.e. tubular 724
Capacitors, paper/polyester 55
Capacitors, polycarbonate 51
Capacitors, polyester-film 724
Capacitors, quartz trimmer 402
Capacitors, variable 336
Cathode-ray tubes, instrument 590
Clock, digital 193
Comparator, visual inspection 470
Computer, general purpose 334
Connector, mark 4 crimp 473
Connectors, board-to-board 726
Connectors, printed circuit edge 334, 656, 791
Controller, analogue 593
Controls, modular plug-in 402
Control system, logic 472
Convertors, analogue/digital and digital/analogue 466
Converters, static 591
Cooling unit 194
Co-ordinate marking-out tables 401
Copper, gold inlaid beryllium 726
Counter, batch 266, 337
Counter, high speed t.t.l. decade 791
Counter, pre-set 269
Counter, 12·5MHz 400
Counters, digital 123, 336
Counter converters 727

Potentiometers, trimmer	400, 403
Potentiometer, wirewound	191, 339
Power modules, compact i/c	529
Powermeter, plug-in r.f.	727
Power packs	591
Power supplies	193, 397, 525, 660
Power supplies, encapsulated stabilized	593
Power supplies and voltage references, modular	526
Power supplies, high-current d.c. stabilized	468
Power supplies, high-voltage	792
Power supplies, stabilized	269, 338
Power supply, compact h.v.	529
Power supply, d.c.	337
Power supply, dual	121
Power supply, integrated-circuit	794
Power supply, isolated	332
Power supply units	471, 796
Power unit, miniature	266
Pre-amplifier, high resolution	190
Preselector, tracking	591
Probe, high-voltage	525
Programming boards	122
Pump, gradient	398
Pumps, molecular sieve sorption	52
Ratiometer	402
Receiver, broadcast	724
Recorder, automatic dewpoint	123
Recorder, miniature potentiometric	524
Recorder, multi-channel	122
Recorders, multi-point	121
Recorder, ultra-violet	399
Recording belts, magnetic	592
Rectifiers, miniature h.v. silicon	656
Rectifiers, power	725
Rectifiers, silicon	723
Regulator module, plug-in series	529
Relay, fixed- or adjustable-time-delay	661
Relay, heavy duty	192
Relay, miniature	269, 273, 401, 526
Relays, reed	399
Relay, solid-state	526
Relay, twin-contact general purpose	793
Reperforator, printing	271
Resin adhesive/sealant, epoxy	661
Resistance box	272
Resistance bridge	530
Resistance standards, calibration	661
Resistance wire, high-stability	795
Resistor modules, miniature	338
Resistors, carbon-film	193
Resistors, microminiature	54, 474
Resistors, positive temperature coefficient	193
Resistors, precision variable	125
Resistor unit, switched	524
Scaler, reversible	470
Scales, decimal digital	192
Servopotentiometer, precision	724
Shielding boxes, r.f.	52
Signal-converter series	657
Single-trace unit for increased sensitivity	590
Sound-level calibrator	595
Sound-level meter	657
Source, d.c. millivolt	468
Source/detector, r.f.	55
Strain bridge, direct reading	121
Strain gauge power supply and bridge balance unit	272
Strippers, thermal wire	530
Suppressors, solid-state transient	658
Switch, microwave	124, 334
Switch, multi-port coaxial	335
Switch, subminiature coaxial	471
Switch, subminiature sealed press	596
Switches and relay units, magnetic reed	590
Switches, dry reed push-button and key	122
Switches, rotary wafer	191
Switching modules, static	270
Switching units, static	51
Synthesizer, u.h.f. variable-frequency	465
Tabulator key	591
Tachogenerator, motor	793
Tachometer, digital	266, 473
Tape, heads, instrumentation	272
Tape shuttle unit	190
Tape testing equipment	120
Tape winder, paper	271
Telemetering system	273
Teleprinter, electronic	793
Television measuring instruments	728
Temperature-test chamber	595
Temperature transducer, subminiature	525
Tester, f.e.t.	332
Test machine, new mark II multicore solderability	471
Test set, semiconductor	657
Test system, semiconductor go/no-go	469
Tetrodes, power	526
Tetrode, u.h.f.	472
Thermoelectric modules	397
Thermocouple potentiometer	594
Thermometer, electronic	660
Trace reader	53

Page

Tracer, programmable semiconductor curve 470
Transceiver, transistorized vehicle 527
Transducers, absolute pressure 191
Transducer, capacitive movement 592
Transducer, proximity vibration 50
Transducer, torque 54
Transformers, micro-miniature 400
Transformers, ring current 336
Transistor holder, press-fit 267
Transistor lead preforming tool 268
Transistor, plastic-overlay 723
Transistor, silicon integrated chopper 474
Transmission test equipment 726
Transmitter receiver, s.s.b. 120
Transvertors 399
Trimmers, miniature 723
Tube, high-contrast storage 531
Tubes, image Isocon 791
Tuning unit, microwave 589
T.W.T. supply, low power 466
Ultrasonic hardness tester 124
Varactor, step-recovery 723
Variable-capacitor boxes 726
Vibration monitoring system 192
Voltmeter, a.f. milli- 795
Voltmeter, differential 125, 589, 658
Voltmeter, digital 122, 403, 794
Voltmeter, new 7in-scale low-cost valve 472
Voltmeter, versatile a.c.-d.c. 657
Washers for power transistors 791
Waveguide frequency meter 660
Welding tools, miniature 267
Wire bonder, ultrasonic 270, 796
Wire stripper, self-adjusting 725
Yarn clearer 397

E

Encoder for full-quality p.c.m. system using a modified monostable multivibrator, period-quantized, by V. K. Agarwal 773
Encoder using integrated circuits, binary-decimal, by K. J. Dean 744

F

Feedback pair, simplified design of the, by J. C. S. Richards 97
Filter circuit for tuned amplifiers and sinusoidal oscillators, a second-order active, by E. A. Faulkner and Viscount Downe 287
Filters, loading effects in two-section RC, by J. F. Young 23
Filter with independent control over the pole and zero locations, a simple active, by W. Farrer 219
Flight simulator for America 176
Flight simulator, the Belfast 171
FRENCH .. 57, 127, 197, 275, 341, 407, 475, 533, 597, 665, 731, 798
Frequency divider using micrologic elements, by S. Jannazzo and G. Rustichelli 419
Frequency synthesizer, an electronically swept, by E. Kantarizis 442

G

Gate, high-speed linear, by E. A. Faulkner and J. B. Grimbleby 565
Generator, a 10MHz, 1A, 50V pulse, by R. W. Alsford and R. E. Hayes 507
Generator, digitizing-pulse, by S. C. Acharyya 503
Generator, linear-staircase, by M. Cadwallader 682
Generators for use in electrophysiology, constant voltage double-pulse, by A. F. Lewis 252
Generators, random and pseudorandom number, by M. Davio 558
GERMAN .. 64, 134, 204, 276, 342, 408, 476, 534, 598, 666, 732, 799
Goonhilly to be extended 218

H

Hall-effect measuring system for large direct and alternating currents, by D. J. Lloyd and C. W. Taylor 452
High-voltage supplies, transistorized, by R. E. Crosbie .. 778

I

Impulse testing of dynamic systems using cross-correlation techniques, by F. Jones 310
Information theory and data transmission, simplified, by A. E. Cawkell—Part 1 212
Part 2 302
Input/output equipment for the Argus computer, new 112
Invertor, firing an adjustable-frequency three-phase, by R. L. V. de Lima Mendes 41
Invertor for mains operated equipment, a stable 50Hz, by W. T. Maloney 374

K

Kidney machine, an automatic 40

L

Laser radiation, continuously tunable 699
Learning situation, demonstration model for a simple, by P. C. Van Soest 629
Lens for television displays, new electromagnetic .. 428
LETTERS TO THE EDITOR .. 186, 262, 391, 458, 516, 586, 648, 715
Binary to decimal convertor, a 186
Bridge circuit with high selectivity, improved RC 649
Cascode circuit using complementary transistors, a modified 262, 393
Converter, binary-to-decimal 649, 716
Corotrons 393
Counter, binary-quinary decade 517
D.C. follower, augmented 262
Decade counter, binary-quinary 716
Electrometer circuit, a junction transistor 648
Films, electrical resistance of evaporated nichrome 516
Giro handling equipment 187
Interference in thyristor controllers, suppression of radio 516
Nucleonic instrument design, economy and reliability 263
Null networks and frequency stability of null network oscillators 186
Oscillators, frequency stability in 649
Oscillator, negative-resistance transistorized 715
Peak-reading circuit, precision 648
Phase inversion in an overloaded amplifier 263
Recorder integrator using a unijunction transistor, simple 648
Solid-state multiplier, a simple 187
Stabilizing output of Wien bridge 392
Voltage reference source, a novel 391
Zener-diode alternatives 715
Low-voltage ring-of-two reference, by P. Williams .. 676

M

Measurement of Parameters of semiconductor devices, by G. May 483
MEETINGS THIS MONTH .. 56, 126, 196, 274, 340, 663, 730, 797
Memory element, solid-state h.l.t.t.l. 16-bit, by Anh Nguyen-huu and R. H. Murphy 581
Microcircuits, large-scale integration of 581
Microelectronics, new concept in 704
Modulation, combination leading and trailing edge variable slope pulse, by O. E. Kruse, D. L. Lewis and J. K. Jackson 174
Modulator, analysis of the capacitance error of a m.i.s.f.e.t. chopper, by J. Dostal 640
Modulators, large-deviation phase and frequency, by D. J. Comer 495
Monostable, a high duty cycle high stability, by R. C. French 372
Motors with electronic speed control, small brushless d.c. 99
Motor vehicles, electronic equipment for, by G. N. Patchett 228
Multiplication using logarithmic diodes, high frequency, by R. P. Ingram 110
Multivibrator, a wide frequency range voltage controlled, by R. J. P. Jones 14
Multivibrator with very small mark/space ratio, by S. Tesic 671

N

Negative-impedance-convertor circuits, large-signal characteristics and stability criteria of, by A. C. Davies 536
Noise analysis of feedback amplifiers, by P. J. Finnegan 612
Noise margins in binary electrological systems, by E. L. Jones 142
Non-linearity by analogue simulation, determination of, by G. W. Holbrook and J. S. Collins 172
Nucleonic instrument design, economy and reliability in, by B. Shepherd 100

O

Oscillator/quadrupler, crystal-controlled 164MHz, by D. Singh and J. Garters 769
Oscillators, distortion in RC bridge feedback, by V. B. Mehta 582
Oscillators for radio frequencies, some novel RC, by R. S. Sidorowicz—Part 1 498
Part 2 560

P

Phase-sensitive detector and its application to a resolved components voltmeter, a current-switching, by J. G. Lacy 148
Powermeter, thermistor, by S. M. Bozic and J. R. Whitbread 637
Power supply design, some approaches to photomultiplier, by R. Barlow and J. Watson 90
Power supply for 3kV, 60mA, stabilized, by G. Klein and C. W. Bodenhausen 609

Page

Power supply using controlled avalanche rectifiers, a mains stabilized high voltage, by R. W. J. Barker 161
Proportional plus rate information on a c.r.t. in the form of two pointers, a means of displaying, by M. R. Green and K. Lord 376
Product-assessment laboratories, the Plessey 439
PUBLICATIONS RECEIVED 340, 662, 719, 787
Pulse amplifiers, fast transistorized, by D. Ivekovic .. 739
Pulse circuit for long delays, a, by B. Jovicic 424
Pulse-length-modulation systems, characteristics of asynchronous and bipolar, by P. D. Sharma .. 691

R

Radio and space research field station at Chilbolton .. 447
Receivers, dynamic measurements on narrow-band, by J. F. Golding 448
Receiver, transistorized colour television 585
Recorder integrator using a unijunction transistor, a simple, by A. R. Atkins 440
Recorder system, a simple frequency-modulation tape, by W. Tempest and M. E. Bryan 87
Recording of mechanical position, a convertor for automatic, by U. Kracht 250
Redundancy in digital systems, by F. A. Inskip .. 244
Regulation of line level in long carrier links, automatic, by J. Korn 429

S

Satellite communications terminal for the Royal Navy 19
Satellite in America, UK-3 45
Satellite launcher, a small British 301
Scaler design consideration, series-connected tunnel-diode, by Z. C. Tan and J. B. Earnshaw 624
Scanning electrical information channels 325
Schmitt trigger circuit, an analysis of the action of a, by D. W. H. Hampshire and D. Petersen 38
Schmitt trigger circuit used in conjunction wtih a current-integrating capacitor, behaviour of a, by L. A. Kemp, D. O. Bottrill and S. Klevenhagen 752
SHORT NEWS ITEMS .. 46, 115, 184, 259, 326, 404, 462, 521, 587, 653, 720, 788
Slippage of asynchronous motors, a digital instrument for measuring the, by V. Bohm, V. Popescu and T. Teitel 106
Solar noise as a means of providing accurate vertical polar diagrams for radars, by M. J. B. Scanlan—Part 1 280
Part 2 367
Speed transients using optical gratings, measurement of, by D. K. Ewing 2
Stimulator, a dual channel, by J. W. Hinshelwood and A. G. Seabridge 16
St. Thomas's Hospital intensive-care monitoring system .. 506
Stub-matching by scattering-matrix methods, analysis of, by J. N. Saha 571
Switches for computer mode control, analogue, by N. W. Bellamy and S. R. Styler 512

T

Tchebycheff directional couplers, the design and manufacture of waveguide, by K. E. Hancock 292
Telecommunication system for light aircraft, combined 451
Telemetry system, short-range shock-measuring, by J. Morrison 542
Telephone exchanges, electronic 96
Television camera, a new photoconductive 86
Television in the BBC Enginering Division 647
Television, London educational 286
Television outside broadcast, first colour 494
Television picture tube, a new colour 387
Temperature control, application of a *pnpn* switch to, by A. Lupic and B. Kovak 28
Thermistor, a diamond 33
Thermistors, calculation of V-I curves for n.t.c., by M. R. McCann—Part 1 346
Part 2 426
Thermistor thermometer, sensitive, by J. C. S. Richards 674
Thin and thick film circuits .. ..
Timers using unijunction transistors, by J. F. Young .. 621
Timing unit for control of stimulation signals, by K. J. Kapota 756
Tracer providing calibrated axes, voltage/current-characteristic, by Min Wei Li and G. Hoffmann de Visme 644
Transistor calculations, unified, by D. W. W. Rogers .. 30
Transistor parameters and their influence on amplifier risetime, by D. Ivekovic 680

Page

Transmission lines, strip, by J. Swift 490
Transmission lines with matched loads, analysis of repeated systems of, by J. N. Saha 632
Triangular-wave generator with large frequency sweep, an accurate, by G. Klein and H. Hagenbeuk 388
Twin-T filter design having an adjustable centre frequency, by K. G. Beauchamp 384

V

Voice-operated watch, a, by K. J. Kapota 114
Voltage reference source, a novel, by T. P. Dawson and and G. C. Taylor 113
Voltmeter, instantaneous pulse-measuring, by N. A. Westman, S. Westerlund and S. T. Berglund .. 748

W

Wattmeter for magnetic loss measurement, a thermocouple, by J. K. Choudhury, R. K. Mondal and S. N. Bhattacharyya 34
